

Telehealth at Faith-Based Organizations Request for Applications:
Questions and Responses

As stated in the Telehealth at Faith-Based Organizations Request for Applications (RFA), the deadline to submit written questions regarding the grant opportunity was April 15, 2019. DHCF did not receive any written questions regarding the RFA before the deadline.

Interested parties should refer to the application requirements (Section IV) and evaluation criteria (Section V) detailed in the RFA. DHCF is interested in receiving proposals from applicants who plan to implement a pilot program to strengthen faith-based organizations' ability to connect District residents in Wards 5, 7, and 8 to health care services through telehealth by the end of the grant period. Applicants are invited to propose the most innovative, efficient approach to achieve the objectives set forth in the RFA as written.
